

JAYCO RALLY at MOE NOVEMBER 2021

Attended by 7 vans

All that are going to show up have. Seven vans in total.

At happy hour Sue constructed an itinerary for the next few days and all seemed to agree.

Sunday we leave fo Walhalla for a train ride through the local country side. Tickets were arranged by Sig the night before. This is a job that should have been left for someone else as he got it wrong by booking on the Wednesday instead of the Sunday. After a worried night he managed to change the dates and all was well. The trip had 6 couples attend and the seventh decided to do something healthy (go for a bike ride) but later met up with us.

The train trip followed the Stringers Creek from Walhalla to Thomson, a round trip of approx 1hour. Having a look for somewhere to have lunch and found most places closed, we all returned to the park and stoped somewhere for lunch.

Monday urned on the sun and a trip to Lake Narracan for a picnic lunch. Unfortunately this did not go as well as we had hoped, Driving too fast, bad radio operation and lack of given info led all getting lost and to find their own way.

For this Sue and Fred are very sorry and hope not to let this happen again.

Eventually everyone got to the destination. So lunch began little heated but I hope forgiven.

lunch finished, dogs exhausted from running in the water, we all headed of to our camps for happy hour and communal dinner cooked on the local BBQ. Once the sun steted the temperature dropped, and we settled in for the night.

Tuesday was a quiet day to recuperate and relax before getting ready to leave for our next destination
